i. When a mileage is protested, the rider has the option of choosing that the measurement be made from the previous known mileage or from the known mileage before the previous one. The protesting rider may require that the odometer calibration section be re-ridden and the appropriate correction factors applied to the odometers used in measuring the disputed mileage. The club may elect to use the average mileages obtained from more than one odometer to determine the disputed mileage as long as the above procedures are followed for each odometer.

j. No ribbons, signs, arrows or any other markings will be removed from the course except:

   i. After the protest period has elapsed without a valid, written protest received by the Enduro Referee.

   ii. Sections not under protest may be stripped after the protest period has elapsed.

k. The Club Referee must notify, in writing, riders who filed a protest within ten (10) days of the event, the club’s decision on the protest. If the protest is upheld, any money deposited by the protested rider must be returned at this time.

l. All riders starting an event are to be scored and reported in the results and those with District 37 cards will receive points based on their position in the results. A rider must reach the first field check on a loop to be considered a starter for that loop. Riders are to be grouped
i. Results shall list riders in overall finishing position per number of loops ridden. 
(Example: If “C” riders ride one loop, they will be listed apart from the other riders.)

ii. Enduro results shall list the following: Overall finishing position, name of rider, points lost (including emergency check score if used to break a tie and last check if not the finish), position in class, District 37 riding number, division, class (example: a 250), bike make and rider’s club or sponsor (if known) 

iii. If official results are posted at an event, then:

b. Any rider on the marked course (excluding commonly used trails in pit area) prior to their starting time will be disqualified.
c. Each sponsoring club shall perform a sound test on each entrant’s motorcycle before the start of the Enduro. The motorcycle must meet current AMA sound requirements before being allowed to participate in the Enduro. District 37 will supply the sound meter.

d. All entries must have a muffler or silencer attached to their machine’s exhaust system for the duration of the event to “legally finish” and acquire points. Promoting clubs may at their discretion require street legal and licensed machines.

Section 6 Points

a. Enduro points for earned numbers shall be calculated from the total number of events for the year, less one.
